The history of the Courses for Foreigners in Spain continues. It will be a notable experience which contributes to the construction of progress and development in the study and of new approaches. In the year 1977-78, the number of students in the Courses for Foreigners in Spain will increase to 10,000. This increase is due to the fact that the Courses for Foreigners in Spain are now being held in 15 cities. The increase is also due to the fact that the Courses for Foreigners in Spain are now being held in 15 cities. The increase is also due to the fact that the Courses for Foreigners in Spain are now being held in 15 cities.

The history of the Courses for Foreigners in Spain continues. It now can call on a notable experience which contributes to the correction of previous deficiencies and the trying out of new approaches. In any case, and in relation to previous years, there can be seen a true increase in the demand in this field which, without doubt, has been behind the organization of new courses in various parts of our country. It is equally true that others have been dropped, but the final balance offered for 1977 is a greater number than for the year before. On the other hand, there are some which have undergone modifications in their organization, changes in location or noticeable variations in their contents.

On offering this new informative edition of the Summer Courses for Foreigners, the Ministerio de Educación y Ciencia wishes to express its deep gratitude to the different institutions, organizing entities and patrons of these Courses for the fecund labor they have carried out in favor of the spreading of the Spanish Language and Culture. More than eleven thousand students will benefit from their initiative and collaboration in causing them to share in our cultural patrimony and it is only just to recognize here and now the singular merit of those who make possible the perfection and consolidation of the Summer Courses for Foreigners.
