COURSES
for
foreigners in Spain
1976-77

R-42-223

The present pamphlet on «Courses for Foreigners in Spain 1976-77» contains information as to the Courses which during this chronological period are organized by Universities and other Spanish Cultural Centers of recognized prestige, aimed especially at foreign graduates and students who may wish to spend a cultural stay in our country to learn the Spanish language and culture or to go more deeply into the study of these subjects.

According to the official statistics of the courses, each year our country is visited by more than 10,000 foreign students, who on returning to their own countries are the best demonstration of the high quality which has been achieved in the organization and the content of these Courses, contributing through their learning and the acquaintances they have made to an every day increasing interest in our country, as well as to a growth in the closer relationship among all people.

This year there are twenty-six Spanish cities which, following the tradition of previous years, are organizing Courses for Foreigners to the number of sixty throughout the length and breadth of the country.

In this publication, edited in three languages, Spanish, French and English, is set forth every kind of information relative to the organization, duration and content of these Courses, diplomas which can be obtained, cost to the student and other information, additional details of which can be, for each course, obtained by writing to the proper Secretariat or Direction of the Organizing Institution.

The Technical Secretariat General of the Ministry of Education and Science of Spain, on presenting this new edition, hopes that the information set forth may be useful for all those persons who may have the intention to attend the Courses for Foreigners in Spain this year.
